DATA ANALYST

The Maine Community College System (MCCS) is seeking a Data Analyst. This position is responsible for the study, extraction, gathering, and analyzing of data from various databases and sources; developing reports, summaries, recommendations, and visual representations; performing statistical programming; developing and/or maintaining databases; providing consultation and technical assistance to a wide variety of clients; advising and assisting clients in determining the appropriate analytical methodology to meet their needs and objectives; using various statistical packages; summarizing and interpreting statistical results; and designing and implementing process improvements.

The position will be based in South Portland.

A BA/BS in Computer Science, Data Science or related field and two years of experience in data analysis, data modeling and visualization, and/or SQL programming. An equivalent combination of experience, education, and training will be considered.

Competitive compensation and benefits package. Please submit a cover letter, resume and three references by the close of business on September 19, 2019 to:

> **Data Analyst Search**
> **Maine Community College System**
> **323 State Street**
> **Augusta, Maine 04330**
> **Or email hr@mccs.me.edu**

Search will remain open until the position is filled.
