CURRICULUM DESIGNER

The Maine Community College System (MCCS) is seeking a Curriculum Designer. This position will, working collaboratively with faculty, workforce development staff, and college-based curriculum developers, develop and revise curriculum to meet the workforce needs of the state. This work will include the development of programs and courses and authentic assessment of methods and tools that lead to a variety of stackable credential options, including digital badges, micro-credentials, certificates, and associate degrees. The Curriculum Designer will lead the System's expansion and improvement of local and statewide delivery of hard and soft work ready skills in technical and business-related disciplines, focusing particularly on high-demand skills and occupations within the state. This position will utilize best practices in the delivery of curriculum to target populations that increases access through use of multiple delivery modalities.

This is a three-year grant funded position and will be based in Augusta with regular statewide travel.

A Bachelor's degree in curriculum design, education, or related field, and a minimum of 2 years of experience in curriculum development and course design are required. A Master's degree in curriculum design, education, or related field desirable.

Competitive compensation and benefits package. Please submit a cover letter, resume and three references by the close of business on April 26, 2019 to:

> **Curriculum Designer Search**
> **Maine Community College System**
> **323 State Street**
> **Augusta, Maine 04330**
> **Or email hr@mccs.me.edu**

Search will remain open until the position is filled.
